CLOUD COMPUTING

Western Governor's University
2021-2022 (Pending)

KEY SKILLS

TECHNOLOGIES

Python, Javascript, PHP, SQL,
AWS, Terraform, Git, Jira,
JetBrains, Linux, Docker,
FinOps

CAREER OBJECTIVE

I'm looking for a role with potential for leadership and broad exposure to public cloud computing. I offer a 20-year history of progressive technology roles and a long list of technologies managed.

PROFESSIONAL EXPERIENCE

Technical Advisor

2nd Watch / Spokane, WA / 2021 - Present

As the Technical Advisor attached to 2nd Watch's Cloud Economics practice, I provide a high level of technical expertise to a cross-functional team of analysts and data engineers. In this role, I:

- Identify & refine new optimization strategies.
- Deliver net-new automations to improve internal processes, enrich messages, and extend our capabilities.
- Maintain a documentation library targeted toward client-facing recommendation docs and internal-facing how-to guides.
- Provide Cloudformation and Terraform example scripts to aid in client implementation of our recommendations.
- Plan & deliver training to the Cloud Economics practice as a whole, covering a variety of Cloud Computing topics.
- Participate in client meetings as the designated point of contact for technical questions.
- Provide hands-on engineering on an ad hoc basis to support client initiatives.

Previous roles continue next page...

Senior Developer

ShineOn.com / Clearwater, FL / 2020 – 2021

Pioneered the principles of DevOps in a startup environment, delivering full stack development work (PHP, Javascript) while also codifying and improving our infrastructure management. Automated numerous server management processes, designed & implemented multi-region architectures, built APM dashboards, added CDN capabilities, performed cost-optimization analysis, and enabled infrastructure as code for key applications.

Team Lead

Chargebacks911 / Clearwater, FL / 2018-2020

Led a team of 6 software engineers in delivering a client-facing REST API as well as a core line-of-business application. While interfacing with department and executive leadership to prioritize features, I triaged user requests, mentored my team, and ensured compliance with all applicable regulations & policies (PCI-DSS, GDPR).

Software Engineer

AffTrack, Inc. / Hudson, FL / 2015-2018

Working as a software engineer, I delivered new features, optimized application performance, and modernized a legacy PHP application by dragging it into the future (kicking and screaming). I also provided client support through tickets, acted as part of an on-call rotation for emergency support, and worked with a large variety of on-prem platforms and services.

Support Manager

Computer Centers, USA / Tampa, FL / 2014-2015

I rose through the ranks from a remote desktop support technician to a manager responsible for 40+ personnel engaged in call-center tech support. I acted as support for escalations and difficult clients, tracked schedules, monitored support sessions for policy compliance, and monitored and reported on overall team performance.

Vice President

REP Sales, Inc. / Olney, IL / 2001-2013

Starting as a warehouse assistant, I worked through numerous positions and gained a broad range of business skills: computer helpdesk, IT manager, purchasing assistant, inside sales, regional manager, then VP. During my tenure here, I built, installed, configured, trained users on, and maintained: Windows Server, Exchange Server, Terminal Server, VPN, LAN, email, printers, spreadsheets, and other office equipment.
